DETAILED ACTION

Response to Amendment

1. This action is responsive to an amendment filed on 07/15/04. Claim 27 is pending. Claims 1-19 have been withdrawn from further consideration and claims 25 and 26 have been cancelled.

Response to Arguments

2. Applicant's arguments with respect to claim 27 has been fully considered but are moot in view of the new ground(s) of rejection which is deemed appropriate to address all of the added limitations at this time.

Claim Objections

3. Claim 22 is objected to because of the following informalities: regarding claim 22 the word 'received' used in line 12 of the claim appears to be the word 'receive'. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 27 is rejected under 35 U.S.C. 102(b) as being anticipated by Tamura (U.S. Patent No. 6,061,571).

Regarding claim 27, Tamura teaches a parent portable unit (i.e., communication unit) communicating with the child (i.e., first) portable telephone unit (fig.2; col.7, lines 60-64).

Art Unit: 2645

Tamura further teaches a ROM 17 (i.e., storage device) storing response messages for replying calls and telephone numbers in association (fig.3, 5; col.11, lines 26-60). (Note; name and telephone number are response messages)

Tamura further teaches a control unit 18 (i.e., communication control unit) causing the parent portable unit to receive a response message request including a telephone number of another unit, obtaining a response message corresponding to the telephone number in the received response message request from the storage device and causing the parent portable unit to transmit the obtained response message to the child portable unit (fig.3, 5; col.7, lines 60-64, col.11, lines 26-60).

Reasons for Allowance

6. Claims 20-24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 20, the prior art fails to teach after having all the limitations of the claim that a response message including a telephone number is recorded in a storage device, is obtained by a second communication control unit of a first portable unit when the first communication unit of the first portable unit receives a call from the other unit and causing the third communication unit of the first portable unit to transmit the obtained response message to the second communication unit of the first portable unit. Claim 21 is allowed since, it is dependent on claim 20. However, claim 22 is allowable after overcoming the claim objection.

Regarding claim 23, the prior art fails to teach after having all the limitations of the claim that a second portable unit obtains a response message including a telephone number from a storage device when the second portable unit receives a response message request from a first

Art Unit: 2645

portable unit after the first portable unit receives a call from another unit. Claim 24 is allowed since, it is dependent on claim 23.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
